

# Benzing LCD Club System Application

**UK ONLY** - Please complete the application form and return it to -

Jim Savage, Benzing UK, 4 Hamilton Street, Kilwinning, Ayrshire, KA13 7AG, Scotland.  
Or email the completed form to [jim@benzinguk.com](mailto:jim@benzinguk.com)

---

It is important to note that ALL Benzing clocks can work on ANY manufacturers universal club systems, providing they are connected using the Benzing universal cable.

A club or an organisation marking centre can apply for a Benzing LCD club system if they meet the correct criteria on application. For example, if they do not have any ETS in their club or they have purchased 3 or more Benzing clocks on the same order or if they are part of an organisation that promotes Benzing, or if they have members who have or are purchasing Benzing systems in the current or coming season.

As the system comes from Austria and since we are no longer part of the EU a small, reduced cost will apply for the club system to cover the import duty and tax when entering the UK. - **£75**

**NOTE** - The club system does NOT include the time piece that sets the master time, i.e., the radio clock or the GPS receiver. These can be purchased separately if they are required.
