BENZING NEW
LIVE Clubsystem Options

For decades, BENZING has been a pioneer in developing smart electronics and software for the racing pigeon sport, and the new BENZING Live Clubsystem sets new standards once again. The smart club unit combines advanced technologies such as cloud-based race management, a full-colour touchscreen and an integrated GNSS antenna. It´s the perfect solution for clubs and fanciers ready for the future.

While the long-awaited USB printer support is finally available, the Live Clubsystem is already designed for the use of online PDFs, actively supporting environmental protection.
